For Office Use

Daily Absentee File Request Form

During an absentee voting period, the Wyoming Secretary of State's office will generate a daily file of Wyoming registered voters who have requested an absentee ballot for that period. Information provided in these files will include the voter's name, address (residential, mailing, and absentee), legislative districts, party affiliation, and information relating to the status of their absentee ballot.

A statewide file will be uploaded to a Google Drive folder each day of the absentee voting period (and a final file the day after the absentee voting period) with updated information. Those who have requested access to the folder may then view these files and download them for further sorting and filtering.

To request access to these files, please provide your contact information below and email the completed form to Elections@wyo.gov or mail to the address listed at the top of this page. Upon receipt of the completed form, an email will be sent to you that contains the link and grants access to the Google Drive folder where the daily absentee files are stored.
